Nailing but the Old Flag.—the Red White and Blue.
With the stars of Liberty on it, and no traitor's hue.
Arise ye dastard millions, come to the front we say,
Whose blood fought in the Revolution and whose veins run true.

THURSDAY MORNING, OCT 13, 1864

NATIONAL UNION NOMINATIONS.

For President,
ABRAHAM LINCOLN,
Of Illinois.

For Vice-President,
ANDREW JOHNSON,
Of Tennessee.

For Presidential Electors,
GEORGE L. WOODS, of Wasco County,
H. N. GEORGE, of Clackamas County,
J. F. GAZLAY, of Douglas County.

STATE SOVEREIGNTY.—The Democratic leaders claim to be sticklers for State sovereignty. Now mark the State that is said to be the most Democratic of all—South Carolina—they say has a right to secede from the Union whenever it pleases, repudiate any law of the Union when it pleases, etc. The joke of this pretense is that the men who now proclaim this doctrine are the identical men who cowardly and ignorant tools are the dupes of designing politicians who at the commencement of the war, when the States of the South had no right to secede, when they were called persons in rebellion, when all who were for the war were called Abolitionists, when the Supreme Court said the war was unconstitutional, declaring the laws of the Union to be of no force—these men were right then and they would be declared right now. If they are not right they can go to the Supreme Court and find them. Which they will not do. We don't care which. Both sides of opinion will be with these scoundrels as traitors for refusing to maintain their allegiance to the State. If the Northern men are traitors for seeking to resist the Union, they are traitors in the Southern way (they are traitors and should be hung either way).

DIRT EATING.—A Connecticut physician pretends to have made the discovery that dirt is convertible into wholesome food. The Lexington (Ky.) *Observer* says: "Just follow out the theory. The Copperheads have lived on dirt eating for the last many years and eat it with even more avidity than ever. Some of them have grown fat on it and hope to grow fatter. The conclusion is that dirt eating is the fact that it don't seem to be particularly advantageous to anybody but the knaves. Those who are merely fools are in the minority, and have a hard time of it. The more they eat the worse they are off. Dirt eating made the fool with Horace Greeley. Dirt eating is poisoning. Dirt eating gives us the prospect of civil war in the North. Dirt eating seeks to reduce the whole country to anarchy, ruin and desolation. When it gets through with the people the copperheads will be happy. Greeley, full and Vallandigham is his prophet. Go and eat dirt. Crawl on your bellies all the days of your life, worship the rebel god of your desires, and in all things obey your devoted and only master. Who not? How should we expect gods to do anything but crawl and eat dirt?"

FROM THE UPPER COLUMBIA.—We clip the following items from the Walla Walla *Statesman* of the 7th October:

We conversed with gentlemen on Wednesday visiting our sanctum who have returned within the past week from Kootenai country. They think that another season will serve to develop new goldfields that will pay well at present in that country. Gold has been discovered on some of the branches of the Kootenai river and it is believed by many that the country lying east to what is known as the Kootenai Valley will afford paying diggings.

Our informants give the opinion that the Pend Oreille section will yet be a famous mining country. It is stated that Antoine Plant, owner of the Spokane river ferry for several years past, and long a resident in the country, last year made $6 per day on the Pend Oreille river, sixty five miles above its mouth. The country is rugged and difficult to approach, yet Mr. Plant thinks a good trail could be made to reach the diggings. The sticks of timber at work on the river were recently found and from all the signs it is clear that it empties something big with it from the mountains before long. It is further represented that Jordan Creek (Kootenai) is the richest yet opened, on account of frost thawing out the gold, which is abruptly upon the rock. There are only a few miles of creek and work can only be got while the water is low, about one month and a half in the fall.

The terminus of Idaho's overland stage line are Boise City, Idaho Territory, and Atchison, Kansas. The stages run twice weekly carrying the United States mails, passengers and express matter. Those leaving Boise City the first and second days of each week reach Salt Lake City, Utah, Denver City, Central Nebraska, to Atchison, Kansas. At Kearney, Nebraska, connect with Hickling's stages for Fort Kearney and Virginia cities. At Julesburg, Colorado Territory, on the eastern slope of the Rocky Mountains, the fare from Boise City to Atchison, $200 currency; weight from Boise City to Atchison, $8 50 per pound, amount of baggage allowed passengers to pounds; children under one year, Boise City to Atchison, 10 days.

In order to accommodate the increasing travel and travel, the steamers of the O. S. N. Company will make four trips a month from Celilo to Wallula. Under the new schedule they will leave Celilo every Tuesday, Wednesday, Friday and Saturday of each week, returning, leave Wallula on Monday, Tuesday, Thursday and Friday of each week. This increase in the number of trips renders necessary by the very large amount of freight now being sent forward. Many of the interior merchants have forwarded their winter supplies, and hence they are hurrying up their abundant supplies.

OREGON BOUNDARY.—Governor Gaines has handed the following letter from Daniel H. Mayor, Commissioner to survey part of the boundary of the Northern Boundary of Oregon to the *Daily Statesman*:

To His Excellency, the Governor of the State of Oregon: SIR—I have the honor to inform you that in accordance with instructions from the Hon. Commissioner of the Public Land Department, Washington D. C., I have determined by astronomical observations that portion of the Columbia river and its tributaries included between the Columbia river and forming the dividing line between the State of Oregon and the Territory of Washington.

This parallel is seen across the Columbia river, which marked by a small mound of stones on the north bank of the Columbia river, and on the south bank by a mound of stones.

The initial monument is situated on the east bank of the Columbia river, on the old emigrant road from Walla Walla to the Dalles, about 3 miles from the Umatilla river, and 3 miles from the Columbia river, at the time cross the Umatilla river and in the 12th mile descends into the Walla Walla Valley, which it crosses, when the 8th mile it enters the Blue Mountains which it traverse until it strikes Snake river in the 100th mile. On the west bank of the river will be found the initial monument, close to the Little Muddy, and the terminal monument will be found on the summit of Grande Ronde valley. A copy of all the astronomical observations, field notes, etc., will be forwarded by the first opportunity. With considerable respect,

Your obedient servant,
DANIEL H. MAYOR,
U. S. Astronomical Surveyor.

CITY.

Money Market

San Francisco Legal Tender Notes ..... 82@—
New York Gold Quotations ..... 2@—

THE TIMES.—The streets of this city were again crowded with teams yesterday, all of which came heavily with country produce. The streets are entirely too narrow for the accommodation of such a mass of business with the farmers, and we hear in very many instances their loads take up so much room that the proceeding, if possible, is a grumble with the people every day. The market should be open for five hours to receive only, but the custom becomes unbearable when the teams are allowed from the wagon and turned loose to block up the whole standing directly across the sidewalk. It cross-walks for loads as a time dismounted, before an additional story will be added to the building, the level will some of the awnings, and pedestrians, see 3 of the No. 1 will be seen. Section No. 60, are explicit in all nothing; and Front street can be converted into a public thoroughfare. Scores of times every day, from one end to the other, every "corrall" does not cover a wall, as long as the "corrall" does not cover a wall, and as long as there with impunity. What additional law to correct the wilful neglect of business may stand there with impunity. What is needed is one good law to correct the wilful neglect of business, and it has been demonstrated that the owners of these teams care little for the convenience of our citizens. We recommend that the Common Council take measures for the protection of the city. It is not only a nuisance but a danger. It will be recollected that quite recently, while teams were blocking the sidewalk in the face by a horse, that was killed by a person, under such circumstances, and it would be nothing strange to hear of similar accidents every day.

THE KANSAS.—The steamer *Julia* went to the Cascades yesterday, in the line of the O. S. N. Company, and did not return in time to go up on the regular trip, but Capt. Ainsworth determined not to disappoint the ladies, and [illegible] steamer *Julia* made a splendid trip for the trip. Business [illegible] failed to connect. Although the flower of the weather was most [illegible] at length it was ready to start, and started at length it was ready to start, and [illegible] the floor, until some more [illegible] the [illegible] the ladies will be given. It was [illegible] to many, and was [illegible] never enjoyed such beautiful scenes before, and forever, was very necessary. [illegible] has long enjoyed such beautiful scenes. [illegible] can yet come off in as fine a style as [illegible] had it taken place last evening.

LIBELOUS ASSAULT.—The *Oregonian* has the honor of an outrageous assault committed upon [illegible] collector for that paper, by a man named Price. The provocation was the presentation of an advertising bill. There is need of stamps in this community that think they can "bilk" publishers with impunity, and we presume that Mr. Bybee is a representative of the class. Editors and publishers should feel it a sacred duty to expose these fellows through, and it is only because that we refuse to the outrage upon Mr. Bybee. The men who go to printing offices and refuse to pay, are the most cowardly scoundrels, and our wish is that such a whip in the hands of every honest man.

THE BARRACKS unked-rium in the world.—We learn from the *Daily Mountaineer* that the Barracks, from the press, so far as we have been able yet concerning the subject referred to.]

GOVERNOR.—A Militia Colonel from the Shamokin Territory, has been writing [illegible] experiences at the Oregon Capital during the Sanitary and State Fairs, which is published in the *Pacific Tribune*. After acknowledging that [illegible] old bachelor had lost half dollars by [illegible] ribboned young ladies of the kitchen [illegible] in the Sanitary, he attempts to pacify [illegible] about his own home by saying: "The [illegible] was the most interesting show. I must be [illegible] candid, and run the risk of Oregon [illegible] me, I never, at any large gathering, saw so [illegible] women." We presume he does think [illegible] he said it; that "the Washington Territory [illegible] need not be jealous any longer." Oh, [illegible]

LADIES' BALL.—The ladies of the Sanitary Society of Vancouver, will give a party at Lucy's Hall, in that city this evening, the proceeds to be contributed for the benefit of the Commission. Tickets of admission (including supper) [illegible] under.) Ice cream extra. The well known [illegible] of the parties given by the ladies of that [illegible] be sufficient inducement for a good [illegible] and as the regular steamer will be [illegible] a fine opportunity is afforded for all [illegible] to enjoy an excellent social party.

ARREST.—A member of the Mercantile Library Association acknowledges the present to those [illegible] a very beautiful collection of corals, by [illegible] C. Brooke, of the park, *Cambridge*. The [illegible] was most happily bestowed, and is the [illegible] an example worthy of imitation. In a [illegible] years there will be no more creditable an [illegible] in the country than the Portland Library [illegible], and we hope to see attached with it as [illegible] a collection of the beautiful and curious [illegible].

OUT OF SERVICE.—About thirty men of [illegible] D, California Volunteers, Captain Scott, [illegible] been stationed at Fort Hoskins for some [illegible] expected by the steamer *Wrangel* to-day, [illegible] Vancouver, where they will be mustered out [illegible] on Saturday, their time of enlistment [illegible] expired. In order that their transportation [illegible] facilitated, the steamer *Vancouver* will [illegible] with the Arrival of the Oregon City boat, [illegible] for Vancouver.

NEW ADVERTISEMENTS.—The following new advertisements appear in the proper place this morning [illegible] Meenmand attention: [illegible] A. R. Richardson, large and peremptory auction [illegible] E. D. Green, Portland Water Company notice; [illegible] The Jewel Saloon, auction notice; [illegible] Eastman, Dancing Academy; Dodge & Phillips; [illegible] M. Gillis, grand Soiree.

OPINIONS.—The telegraphic reports from the [illegible] Indiana, and Pennsylvania State election [illegible] morning, indicate the chances of Lincoln's [illegible] obtain the Presidency. Does not such intelligence [illegible] the barnacles of "non men"? Would it [illegible] appropriate to burn a little powder in [illegible] on the strength of this?

THE GRAND RONDE CASUALTY.—The name of [illegible] recently killed by being thrown from a [illegible] was riding in a racing match at Grand [illegible] valley, was Wm. McCauley, formerly [illegible] this city, and if our information is correct [illegible] wife and one child. He was thrown from [illegible] on Saturday the [illegible] until the following day.

OCCUPATION AGAIN.—By reference to our advertising columns this morning it will be seen that the [illegible] *Moses Taylor* J. H. Blether Commander, will [illegible] San Francisco on Wednesday Oct. 19th, [illegible] New York, via Nicaragua. Fare has been reduced to suit the times.

FIRE ALARM.—The fire alarm last evening was occasioned by the burning of soot in a chimney on the [illegible] lodging house of Mr. Milkandcurd, near First [illegible] Morrison. The department of the city was promptly out, but "nothing much" was the result.

APPLES.—Apples continue to come in pretty freely [illegible] at prices varying from 50 cents to $1 00 [illegible]. Messrs. Richards & McCracken inform us [illegible] shipment of apples by the *Wind Mercantile*, [illegible] prices ranging from $1 25 to $1 50 per box.

THE *Mark, Helen W. Almy* will not sail until to-morrow morning.

SPOTTED TREX RIGHT.—Lately the Copperheads [illegible] the use of the City Hall in Bangor, Maine, for [illegible] State Convention, but the Unionists Committee [illegible] the request on the ground that they [illegible] demand desired to use it "for a purpose hostile [illegible] Government during the existence of the present [illegible]." So the Convention was held in a large [illegible]

Dr. Hostetter's Stomach Bitters.—The stomach is the fountain head of scores of diseases which infest the human system. Indigestion, and through it, generates diarrhœa, dysentery, faintness, vertigo, palpitation of the heart, general debility, &c. Get rid of it, then, at once, by going through a course of
Dr. HOSTETTER'S STOMACH BITTERS,
A palatable and invigorating preparation, which is surely relief in all complaints of the stomach and its dependencies, as the sunshine melts the snow. A course of the medicine may not perhaps be necessary. One bottle frequently accomplishes a complete cure.—Sold by all Druggists and dealers everywhere. s12d&w

The first effect of a bilious climate upon the human system is to produce torpor and inactivity of the Liver, thereby preventing the natural and free discharge of bile. All know the baneful nature of the poison that produces Fever and Ague, and its kindred diseases. A sallow complexion, capricious appetite, and occasional pain in the side, are often the only symptoms to warn of impending danger. The operation of Dr. Osgood's India Cholagogue is to counteract this malarial influence, by producing activity of the biliary organs, and a healthy discharge of bile from the system.
Guard against imitations. Be sure that you obtain *Dr. Osgood's India Cholagogue* and you are safe. Sold everywhere. Sole Agents for the Pacific Coast.

Furthermore, Commodore ——— is the right dying man to serve. Two-thirds right—leaving three-fifths wherein to be found. The Peace and War men ——— pleasantly, but Fremont's ——— Cochrane, and Judd ——— was rather intimated that he was for Lincoln.

But the jesting in this letter covered the men talked of for a Presidential candidate. "Hurrah Seymour, right do." "Fillmore would be a good selection." "If a military man is to be run, we insist upon the nomination of Buell—he is qualified by persecution, by his bravery and in respect of the South for him." "McClellan should not be nominated." "He has neither the brain nor the nerve." The Richmond editor does not object to a War candidate, but then he wants a warrior who does not fight. This letter is very amusing to the Northern Democrats. They have cried hard and stated nobody. They have disgusted themselves with a platform and a candidate utterly incongruous, disgusted the extreme Union men by their uncertain attitude, and greatly disgusted the South by naming the very man that it abhors first to last and put out the coalition Unionists.

Another Richmond paper, the *Enquirer*, in an impudent leader, says very truly, "Every Yankee alone can check-mate Lincoln and weaken his hand, which is quite strong as compared with the frantic organization led by the ridiculous Fremont, and the Democratic party broken in two by the peace and war divisions." Since that was written there have been sad reverses—for the enemy, none for the rest. The bold scheme of the Chicago Convention—the foolish attempt to make a union of shoulder-to-shoulder men swallow at the same gulp a peace platform and a war candidate, proves utterly futile. The London *News* well says, that in the presence of the great movements on the field of battle, the Chicago Convention has its importance. The political campaign is already substantially over. The greatest general, inflexible because he has achieved a victory, and every Union man still feels, and should the necessity of contest, untiring zeal, for the cause, until the November election has sealed up the triumph irrevocably; but it is sure, as sure as any event in the future can be, that Abraham Lincoln will be re-elected next November. In ordinary cases we cannot qualify the degrees of a man's deadness, but in politics comparisons are possible often-times. Thus Fremont as all parties, is very dead, and the most deadest man in all the North is Geo. B. McClellan. —*S. F. Bulletin.*

LETTER FROM EX-SECRETARY CHASE.—The Boston *Transcript* of August 30th has the following:

We have seen a letter from Chase to a Boston friend, relating to the ridiculous story which has been going the rounds of the papers, that he had invested in the English funds. We have obtained permission to make the following extracts from the letter:

"A letter from England, and from a respectable source, declares that Chase has invested a large sum, it is said about £200,000 in the English funds." —*N. Y. Commercial Advertiser.*

"Somebody sent me the Boston *Post*, with the enclosed marked sentence among its 'All Sorts of Paragraphs.' The sentence belongs to the class best described as lies absolute. I have positively made no investment in English funds, but I have never thought of such a thing. No true American will send money abroad, when all that all can spare is required for the suppression of rebellion at home. The object of the paragraph may be to convey an insinuation that I have made money from my official position. There seem to be people who imagine that it is impossible for a man to be Secretary of the Treasury in times like these without using his power to enrich himself. These people are mistaken. Not to mention ——— directly or indirectly, from any loan, negotiation, contract or transaction, on behalf of the Government. Nor do I believe that any American capable of the duties of the office would. Corruption is, I trust, not yet, I trust, an uncommon virtue in our country among public men."

THE UNION CAUSE AND ITS FATALITY.—Invasions of the North by the enemy are at an end. The rebel territory has been reduced fully one-half. Every fighting man to be scraped together by forced conscription is in the rebel armies, even to boys of 15, and men of 55 and still Gen. Lee finds himself unable to shake Grant's grip south of Richmond, while Sherman has blood by the throat at Atlanta and is slowly but surely suffocating him. Resumed in on every side, the enemy is now strictly on the defensive, holding on with sullen tenacity to his intrenched position, but quite unable to protect his communications with no reserve force upon which to draw, and no hope of outside aid from any quarter. For England has pledged herself anew to strict neutrality—and without England to lead, no European power dare to intervene for the preservation of human slavery.—*N. Y. Coc. S. F. Bulletin.*

Solution of Protoxide of Iron.

Has been used with Great Success in Curing

DYSPEPSIA,

Affections of the Liver, Kidneys, Stomach, Blood and Consumption; Nervousness, Disorders of the Kidneys, Female Complaints, Chronic Diarrhœa, Dropsy, Scurvy, the various forms of Skin Diseases, Mercury, &c.

GENERAL DEBILITY,

Special Diseases will receive prompt attention.

Tonic and Alterative Medicine.

THE PROOFS OF ITS EFFICACY are so numerous, well authenticated, and of such a character that no sufferer can reasonably hesitate to receive the proffered aid.

The class of diseases for which the Syrup professes a cure, is precisely that which has so completely baffled the skill of the medical profession, and its power over the above diseases and the safety and efficacy of the Syrup, are controvertible.

From well-known Citizens of Boston.

The undersigned having examined into the medical effects of the Peruvian Syrup, deem it a duty due to the afflicted to add their testimony to the many others already given to the community in favor of this valuable medicine.

Rev. JOHN PIERPONT,	REV. MRS. CHAMORY,
THOMAS A. DEXTER,	PETER HARVEY,
S. H. RUSSELL, M. D.,	JAMES C. DUNN,

Certificate of Dr. Hayes.

It is well known that the medical effect of Protoxide of Iron for half a century has been consequently great, and that to maintain a solution of protoxide of Iron, without either oxidizing it, has been deemed impossible.

In the Peruvian Syrup, this desirable point is attained by combining it in a way hitherto unknown; and this solution may be said to be the only solution of protoxide of Iron existing in Medicine.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. It has been considered the most useful article in Materia Medica, and many of the most eminent and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr Henry Anders, a physician and chemist of New York after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent. This considered impossible by the scientific world, is attested by certificates of analysis from Prof. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was highly appreciated by the faculty, but it was published in the Medical Journals, and its properties made known to them. (See "American Medical Monthly," July 1, 1858, page 76.)

This valuable medicine is now available to the suffering in the cure of Scrofula in all its manifold forms, Chronic Sore, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

its operation is evinced by at once arousing the digestive organs and increased nutrition of the body, as the result of the employment of Iodine. The patient recovers health, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.
